

## **ESL1500 |**

### **Industrial applications include:**

Hospitals, supermarkets, cafeterias, etc.

Burnishers give your floors the "wet look", delivering a gloss finish on a variety of floors.

With its hi-speed rotation combined with hi-speed pads, and floor finishes a burnisher creates heat that burnishes a glossy finish on the floor.

Maintain your own floors with a burnisher. A positive first impression due to shiny clean floors help your customers make the decision to rent and shop in your store!

## **ESL1500 20" Burnisher**

### **Standard Equipment:**

20" burnisher, 1500 RPM, 1.5hp, Stainless Steel Apron, 50' Cord, adjustable chrome plated handle tube, Non-Marking PVC bumper, 5" easy rolling, non-marking wheels.
